

0806 DYNAMIC TAG MODULE

0806 Dynamic Tag Module, antenna and chip are packaged in one unit to facilitate your implementation. Its compact size (8mmx6mm) encompasses dual interface on both RFID (also NDEF message support) and I²C. Featuring faster data transfer and the all-in-one design, this component is SMD process applicable and can effortlessly fit into your sensor, energy harvesting and electronic device where RFID can play a role.
